

To Access a User's cPanel Account

1. Log in to your root account of WHM.
2. Select the **Account Information** option from the navigation menu.

3. Click on **List Accounts**.

A list of all active cPanel user accounts will appear.

4. Go to the user account you want to access and click the **cPanel icon** in front of it.

Page: First 1 Last All Per Page: 30 Showing all 1 records. **Suspended accounts are highlighted in red.**
