

KLR ON SALE ONLY  
IN YEARLY SETS WITH  
YEARLY COMPREHENSIVE INDEX

**WITHDRAWAL OF PROPOSED REDUCTION IN  
PRICE OF THE KLR (ALL SC/NOVEL CA)**

We regret to inform our subscribers that the proposed reduction in price and liberty to pay in copies published on the back cover of (2000) 1 KLR (PT 94) was withdrawn long ago when we found it impossible. So that subscribers that paid a lower price would do well in paying the outstanding balance. We are grateful to those who have already paid up their balance.

Apart from several factors that led to the withdrawal of that proposal, it should be noted that cost of materials rose so much as a result of serious drop in the exchange rate. So our price remains what it has been since 1998. If we receive good cooperation from our present and future subscribers by their making full advance payment for yearly subscriptions, we would by God's grace maintain our said 1998 price for a long time in spite of continued increase in cost of production.

We are presently considering a system of payment and delivery of copies to our subscribers that will remove all the hitches we are encountering in those areas. **WATCH OUT!** for the publication of the new arrangement we are making on prompt delivery and payment.
